9. All questions are compulsory.
10. Only filled OMR sheet will be accepted as an answer script.
11. Sheets for rough work is provided in the Question Booklet at the end.
12. Candidate should allocate their time judiciously to all the questions.

Section I

ESSAY, PRECIS, PARAGRAPH AND DRAFTING

Question 1.

[30 Marks]

Write an essay in about 500 words on any one of the following topics

- (a) Police Force is vital for the progress and prosperity of India
- (b) Outcome of COP 26 held at Glasgow – Implications for India
- (c) 50 years of Meghalaya – past, present and future
- (d) Covid 19 pandemic and its impact on our economy
- (e) Credibility of Indian print and electronic media

Question 2.

[20 Marks]

Make a precis of the following passage not exceeding one-third of its length and suggest a suitable title.

Democracy which postulates enlightenment, is by and large, a blessing and illiteracy, which implies ignorance, is therefore, a menace. How can the two co-exist? Democracy assumes that there is a high degree of political consciousness, a fair degree of education and intelligence a continuous interest in public affairs, and a full, abiding realisation of the duties and responsibilities of true citizenship. For all these qualities, literacy is indispensable; where there is illiteracy, the basic conditions for the success of a democratic set-up do not exist.

Again, democracy is Government by discussion, response and consent. Where there is no discussion, no free exchange of views, and no freedom of expression which enables uninhibited exchange of views, there cannot be real democracy. These factors also presume the existence of literacy, how can there be discussion, debate and a free exchange of views on public affairs when the people are not literate and do not possess the basic qualifications, as well as a fair standard of intelligence which come with literacy and education?

There cannot be any democracy where there is no education, though there could be education- even a high degree of it – even where there is no democracy, as in countries where there is dictatorship, arbitrary and authoritarian rule.

Dissent there always will be wherever there is a sizeable society comprising people of different shades of opinion, having different approaches to life and sharp inequalities – social, economic or political. Democracy assumes that people are fully aware of the value of dissent and differences of opinion, and they also know that all forms of non-violent dissent should be tolerated in a democratic order. Tolerance of other's opinions is essential to a democracy, while dogmatism, suppression of dissent and intolerance cannot be allowed in a democracy.

Democracy can flourish only in a society where there is equality in law and where discriminations on various grounds such as sex, religion, caste and economic status are illegal.

Fundamental right are exercisable where there is a full sense of responsibility, because absolute freedom of action or expression is absolute nonsense. So there must be reciprocity, for which also there should be an educational background, that is, a fairly high standard of literacy.

Question 3.

[10 Marks]

Write a paragraph in about 125 words on any of the following statements.

- (i) It is better to light a candle than to curse the darkness
- (ii) Cowards die many time before their death

Part III REASONING

Subash is 14 inches taller than Jatin. The difference between Subash and Sanjeev is 2 inches less than between Sanjeev and Jatin. Subash at 6 feet and 6 inches is the tallest

55. How tall is Sanjeev?

- A. 6 feet B. 5 feet 4 inches
C. Cannot be determined D. None of these

56. How tall is Jatin?

- A. 5 feet 4 inches B. 6 feet
C. Cannot be determined D. None of these

The cricket match between India and Pakistan was over.

Harbhajan scored more runs than Ganguly
Sachin Scored more runs than Laxman but less than Dravid

Badani scored as much runs as Agarkar but less than Dravid and more than Sachin
Ganguly scored more runs than either Agarkar or Dravid

Each batsman scored 10 runs more than his immediate batsman. The lowest score was 10 runs.

57. Which of the following batsman scored 50 runs?

- A. Ganguly B. Dravid
C. Agarkar D. Cannot be determined

58. Which of the following batsman scored 30 runs?

- A. Agarkar B. Ganguly
C. Dravid D. None of these

59. There is a family party consisting of 2 fathers, 2 mothers, 2 sons, 1 father-in-law, 1 mother-in-law, 1 daughter-in-law, 1 grandfather, 1 grandmother and 1 grandson. What is the minimum number required so that this is possible?

- A. 5 B. 8
C. 12 D. None of the above

60. If P is brother of Q and R is the sister of Q, how is P related to R?

- A. Uncle B. Brother
C. Sister D. None of the above

61. Suppose you enter an elevator at a certain floor. Then the elevator moves up 6 floors, down 4 floors and up 3 floors, you are then at floor 7. At which floor did you initially enter elevator?

- A. Floor 3 B. Floor 4
C. Floor 1 D. Floor 2

62. Ashish leaves his house at 20 minutes to 7 in the morning, reaches Kunal's house in 25 minutes, they finish their breakfast in another 15 minutes and leave for their office which takes another 35 minutes. At what time do they leave Kunal's house to reach their office?

- A. 7:40 am B. 7:20 am
C. 7:45 am D. 8:15 am

63. I am facing south, I turn right and walk 20 metres. Then I turn right again and walk 10 metres. Then I turn left and walk 10 metres and then turning right walk 20 metres. Then I turn right again and walk 60 metres. In which direction am I from the starting point?

- A. South B. Southwest
C. West D. Northeast

64. In a certain code BEAUTIFUL is coded as 573041208, BUTTER as 504479, how is FUTURE coded in that code?

- A. 201497 B. 204097
C. 704092 D. 204079

Part IV

BASIC SCIENCE

65. Which of the following forces is/are the reasons for occurrence of tides in the oceans and seas?

- A. Gravitational force of the sun
- B. Gravitational force of the moon
- C. Centrifugal force of the earth

- A. A only
- B. B and C only
- C. A and C only
- D. A, B and C

66. Transformers are used in between the electric power stations and homes or factories in order to:-

- A. Minimise the power loss in transmission cable
- B. Minimise the voltage drop in transmission cable
- C. Minimise the current drop in the transmission cable
- D. Provide constant voltage at the user end

67. The elderly person while trying to read a book at about 25 cm from the eyes finds the image appeared blurred because of the decreasing of the ciliary muscles and the loss of flexibility of the lens. This defect of the eyes is called:

- A. Myopia
- B. Astigmatism
- C. Hypermetropia
- D. Presbyopia

68. Water is a chemical composition containing:

- A. Hydrogen and Oxygen
- B. Hydrogen and Carbon
- C. Oxygen and Sulphur
- D. Oxygen and Manganese

69. Which is an output device?

- A. Printer
- B. Mouse
- C. Keyboard
- D. Joy stick

Part V

GENERAL KNOWLEDGE

70. Full fledged State of Meghalaya came into being in the year:

- A. 1969
- B. 1970
- C. 1971
- D. 1972

71. Meghalaya attained autonomous State status in the year

- A. 1970
- B. 1969
- C. 1968
- D. 1967

72. In which year will Meghalaya celebrate 50 years of its formation.

- A. 2022
- B. 2023
- C. 2024
- D. 2025

73. Meghalaya has legislature which is

- A. Bicameral
- B. Unicameral
- C. Tricameral
- D. None of the above
